SUPERIOR QUALITY

You expect memory products to last a lifetime and we go to great lengths to meet or exceed your expectations! Dataram memory products are:

- Manufactured & assembled in our state-of-the-art ISO 9001 facility in the USA
- 100% tested prior to shipment
- Adhere to the world's highest standards for quality excellence

GUARANTEED COMPATIBILITY

Dataram has nearly 50 years experience designing, manufacturing and testing memory products.

- Dataram memory is guaranteed to be 100% form, fit and function compatible
- Our memory is tested, validated and certified by Intel, AMD and CMTL
- 17+ year relationship with CMTL (Computer Memory test Labs)
- 3300+ system level tests have been performed
- RoHS compliant and energy-conserving low power modules

OUR SAVINGS GUARANTEE

We're so confident in our company, our products, and our programs that we guarantee you savings just for engaging with us. We help identify and implement many ways to save with our unique Dataram Advantage Programs. We help save on energy costs too!

- Consult on the power % cooling trade-offs of various memory configurations
- Optimize a power profile while balancing the performance needs
- Support "green" objectives.

Whether your memory needs are current DDR4 or much older SDR technologies, we can satisfy ALL your requirements. Our longevity, skilled expertise, and personalized touch makes Dataram the perfect partner for your company.

We are Built on People Who…

Care

We excel in our Customer Care. It starts with our pre-sales support and is fully engaged through the life-cycle of our memory.

Consult

Our memory specialists offer a personal touch and guide you in selecting the best overall IT solution.

Customize

Our size is our asset. We are highly responsive, flexible, adaptable and nimble. We have the ability to customize our offering in many unique ways to fit the exact need of our customers.
